

## **QUALITY AND ENVIRONMENTAL POLICY**

Alpha Metall GmbH and Alpha Aluminium GmbH specializes in the manufacturing of aluminum parts and components for the automotive, railway, industrial and other sectors that require high quality, reliability and consistent performance.

Our mission is to provide products that meet customer requirements and applicable statutory and regulatory obligations while conducting our business in an environmentally responsible manner and supporting sustainable development.

To achieve this, we are committed to:

### **Quality Commitments**

- Delivering products and services that consistently meet customer expectations and applicable requirements.
- Maintaining effective and controlled manufacturing processes to ensure product quality, reliability and on-time delivery.
- Understanding and satisfying the current and future needs of our customers and other relevant interested parties.
- Developing employee competence, awareness and engagement to support continuous improvement.
- Applying risk-based thinking and process management principles throughout the organization.
- Establishing, monitoring and reviewing quality objectives aligned with our strategic direction.
- Continually improving the effectiveness of our Quality Management System in accordance with ISO 9001.

### **Environmental Commitments**

- Protecting the environment, including the prevention of pollution arising from our activities, products, and services.
- Complying with applicable environmental legislation and other obligations relevant to our environmental aspects.
- Reducing the environmental impact of our operations through efficient use of raw materials, energy, water and other natural resources.
- Minimizing waste generation and promoting reuse, recycling and responsible waste management practices.
- Considering environmental aspects when planning processes, introducing new technologies, and making investment decisions.
- Promoting environmental awareness and responsibility among employees and business partners.
- Continually improving the Environmental Management System to enhance environmental performance in accordance with ISO 14001.

### **Management Commitment**

The management is committed to:

- Providing the resources necessary to achieve quality and environmental objectives.
- Promoting a culture of quality, environmental responsibility and continuous improvement.
- Supporting the process approach and risk-based thinking throughout the organization.
- Communicating this Policy to all employees and making it available to relevant interested parties.
- Periodically reviewing the suitability of this Policy and ensuring its alignment with the strategic direction of the Company.

This Quality and Environmental Policy provides the framework for establishing and reviewing quality and environmental objectives and is understood, implemented and maintained at all levels of the organization.
